

We would like to thank you for using our HVAC templates and introduce you to a new website, **FieldOrders.com**. They have taken the figures from our templates and made them available online.

Plastic Templates and a fax too slow for you?

Are you looking to take advantage of the latest technology?

Now your shop can receive real-time orders from field installers.

With all of the new remote hardware technology that is available, you can now save time and paperwork (and looking for fax machines!) by submitting field orders online with your smart-phones, tablet PCs, or laptops. We have made our popular template figures available through a fantastic website called **FieldOrders.com**. This site manages all of your field requests in an on-line database. It allows remote fitting and miscellaneous item input for anything needed on the job site. It automatically notifies the shop when a field order is submitted and notifies the field when an order ships. Seeing is believing, go to **FieldOrders.com** and ask for a free trial.

- **Create a job with locations**
- **Choose your fittings**
- **Enter the dimensions**
- **Choose miscellaneous items**
- **Save the order**
- **Shop is notified**
- **Shop ships the order**
- **Installer is notified**

Improve communication from the field to the shop!

To see these features and more visit **www.Fieldorders.com** today!
